IILM UNIVERSITY

Internship Title: Software Engineering Intern

Internship domain: Software Development, Web Technologies & Application Engineering
Internship Duration: 20 May 2026 – 20 August 2026 (3 months)

Name : Shubham Maurya
(Roll No. : 2410030323)
Program : B.Tech. CSE
Semester : 5 (3CSE20)

Organization Name: Codizio Technologies Private Limited, East Delhi, Delhi

INTERNSHIP OBJECTIVES & SCOPE

Practical exposure to the software development lifecycle and modern development practices

- Understand Software Development Life Cycle (SDLC) methodologies and Agile practices.
- Gain exposure to frontend development using HTML, CSS, JavaScript and React.js.
- Explore backend development using Node.js and REST API integration.
- Understand database management using MySQL and MongoDB.
- Learn version control and collaborative development with Git and GitHub.
- Develop awareness of code review, clean code and maintainable software practices.
- Understand debugging, testing and quality assurance processes.
- Explore deployment concepts, cloud platforms, microservices, Docker and technical documentation.

KEY TECHNICAL SKILLS & TOOLS

Technologies and security concepts explored during the internship

FRONTEND

HTML • CSS
JavaScript • React.js

BACKEND

Node.js
REST API Integration

DATABASE & COLLABORATION

MySQL • MongoDB
Git • GitHub

MODERN ENGINEERING

AWS/GCP • Docker
Microservices • QA

KEY LEARNING & PROFESSIONAL DEVELOPMENT

❖ **Building programming, problem-solving and professional engineering skills**

- **SDLC & Agile**: Developed an understanding of structured software development processes and Agile practices.
- **Full-Stack Exposure**: Gained familiarity with both frontend and backend development workflows.
- **Database Skills**: Learned the role of relational and NoSQL databases in software applications.
- **Collaboration**: Understood version control and collaborative development using Git and GitHub.
- **Code Quality**: Learned the importance of clean, maintainable code and code review practices.
- **Testing & Debugging**: Developed awareness of systematic debugging, testing and quality assurance.
- **Modern Engineering**: Explored cloud deployment, microservices and Docker-based containerization.
- **Professional Growth**: Strengthened programming skills, problem-solving ability and professional attitude.

CONCLUSION & INTERNSHIP OUTCOME

❖ **Relevance to a future career in Software Engineering**

- The internship provided broad practical exposure to the software development lifecycle and application engineering.
- It connected development concepts with technologies used across frontend, backend and database layers.
- Exposure to React.js, Node.js, REST APIs, MySQL, MongoDB and Git/GitHub established a strong development foundation.
- Testing, debugging and code-review practices highlighted the importance of software quality and maintainability.
- Cloud deployment, microservices and Docker introduced modern approaches to application deployment and architecture.
- Overall, the internship created a foundation for further learning in Software Engineering and full-stack development.

CERTIFICATE FOR INTERNSHIP

Date: 29th August 2026

TO WHOMSOEVER IT MAY CONCERN

This is to certify that **Mr. Shubham Maurya** has successfully completed his internship at **Codizio Technologies Private Limited** as a **Software Engineering Intern** for the period from **20th May 2026 to 20th August 2026**.

During his internship, he actively worked on and explored the following areas:

Software Engineering Responsibilities:

- Software Development Life Cycle (SDLC) methodologies and Agile practices.
- Frontend development using HTML, CSS, JavaScript and React.js.
- Backend development using Node.js and REST API integration.
- Database management using MySQL and MongoDB.
- Version control and collaborative development using Git and GitHub.
- Code review practices and writing clean, maintainable code.
- Debugging, testing, and quality assurance of software applications.
- Deployment concepts using cloud platforms (AWS/GCP).
- Understanding of microservices architecture and containerization using Docker.
- Documentation and technical writing for software projects.

He demonstrated strong programming skills, problem-solving ability, and a professional attitude throughout his internship. His performance was commendable, and he proved to be a valuable member of the development team.

We wish him great success in all future professional endeavors.

Intern Details:

Name: Shubham Maurya | **Mobile:** 9341276775 | **UIDAI:** XXXX-XXXX-9066

Address: Delta-1, Block C, Greater Noida, Uttar Pradesh

Designation: Software Engineering Intern | **Duration:** 3 Months (20th May 2026 – 20th August 2026)

Warm regards,

SHAHBAZ ALAM, Director/CEO
Codizio Technologies Private Limited
